

REFEREED PROCEEDINGS

32ND ANZRSI CONFERENCE

(EDITOR: PROFESSOR CHRISTINE SMITH, GRIFFITH UNIVERSITY)

30TH NOVEMBER – 3RD DECEMBER 2008.

**© 2009 The Australia and New Zealand Regional Science Association
International Inc.**

THE REGIONAL SCIENCE ASSOCIATION INTERNATIONAL

The Regional Science Association International (RSAI) is an interdisciplinary, international organisation focusing on understanding the growth and development of urban, regional and international systems. This is promoted through meetings and publications, developing appropriate concepts and methods of analysis, and through the discussion of regional problems and policies. The Australia and New Zealand Section (ANZRSAI) is the local 'branch' of the international body.

The broad membership of the ANZRSAI Inc., together with its international affiliation with over 35 countries, provides an Australia - New Zealand perspective within a global regional development context.

The ANZRSAI's goals are:

- To disseminate knowledge relevant to regional issues and process.
- To encourage research and analysis in fields relevant to regional policy and process.
- To provide forums for the discussion of research, planning and process.
- To encourage and facilitate the professional development of those involved in regional economic and social research, policy and practice.

To develop policies in liaison with relevant agencies with respect to regional analysis and process.

To raise community awareness of regional economic and social policy and practice.

Through its annual conference, meetings and publications, the ANZRSAI Inc. encourages members to participate in discussions in order to achieve greater recognition of the need for regional development policy and practice, and to ensure that appropriate structures are pursued within regions in support of regional development based upon analysis and appropriate planning. It is committed to ensuring that Australian regional development process is of a quality that is recognised world wide.

The ANZRSAI membership encompasses people from many disciplines, including economists, geographers, planners, educators, engineers and consultants, and from many fields of activity; government, universities, research and planning establishments and the private sector. A major strength of the Association lies in the interaction of these various perspectives.

Membership is open to any individual or institution with an interest in regional issues. Annual membership subscription for individuals is \$160 (Student \$30.00, Emeritus Subscription \$60.00). Institutional Membership is \$337.50 pa. Members receive the two journals published three times yearly by the ANZRSAI; *The Australasian Journal of Regional Studies* which is an academic journal, and *Sustaining Regions* for those interested in current regional development practice. They also receive the ANZRSAI Newsletter.

For membership enquiries and/or further information, contact:

The Executive Secretary, ANZRSAI Inc., via our website at www.anzrsai.org

ALL PAPERS INCLUDED IN THIS SET OF CONFERENCE PROCEEDINGS WERE
SUBJECTED TO A DOUBLE BLIND REFEREEING PROCESS.
